HOUSE CONCURRENT RESOLUTION NO. 28 BY WAYS AND MEANS COMMITTEE

A CONCURRENT RESOLUTION

STATING LEGISLATIVE FINDINGS REGARDING THE NEED FOR MANAGED RECHARGE OF THE EASTERN SNAKE PLAIN AQUIFER AND DIRECTING THE NATURAL RESOURCES INTERIM COMMITTEE IN CONJUNCTION WITH THE IDAHO WATER RESOURCE BOARD TO PURSUE IMPLEMENTATION OF MANAGED RECHARGE.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, the extended drought in combination with changes in irrigation practices and ground water pumping has resulted in reduced spring discharges and reduced gains to the Snake River from the Eastern Snake Plain Aquifer; and

WHEREAS, reduced spring discharges and reduced gains to the Snake River have resulted in insufficient water supplies to satisfy existing beneficial uses relying on spring discharges and Snake River flows; and

WHEREAS, reduced spring discharges and reduced gains to the Snake River have led to conflicts between water users diverting from water sources hydraulically connected to the Eastern Snake Plain Aquifer; and

WHEREAS, the conflict between water users poses a significant threat to the state's economy as well as to the economic well-being of individual water users; and

WHEREAS, the welfare of the people of the state of Idaho is dependent upon the conservation, development and augmentation of the water resources of the state and the protection and preservation of such resources for application to beneficial uses within the state pursuant to state law; and

WHEREAS, Policy 1J, of the Idaho State Water Plan, encourages the implementation of managed recharge pursuant to state law; and

WHEREAS, the Idaho Department of Water Resources prepared a report entitled "Feasibility of Large-Scale Managed Recharge of the Eastern Snake Plain Aquifer System" in December 1999, that sets forth a reconnaissance-level basis for development of a managed recharge program; and

WHEREAS, specific site investigations, feasibility-level evaluations, assessment of the availability of water supplies, affect on existing water rights, and other analyses are required;

and

WHEREAS, water users addressing the Expanded Natural Resources Interim Committee in 2004 urged the state of Idaho to move forward with the implementation of an effective managed recharge program to augment the Eastern Snake Plain Aquifer; and

WHEREAS, there is an urgent need to target managed recharge to locations that will provide maximum benefits to Snake River reaches relied upon by affected water users.

NOW, THEREFORE, BE IT RESOLVED by the members of the First Regular Session of the Fifty-eighth Idaho Legislature, the House of Representatives and the Senate concurring therein, that the Natural Resources Interim Committee, in conjunction with the Idaho Water Resource Board, is directed to work with interested parties to develop specific site investigations, assessments of the availability of water supplies and a plan for implementation of a managed recharge program for the Eastern Snake Plain Aquifer that will provide maximum benefits to Snake River reaches relied upon by affected water users along with recommendations for necessary legislative changes to implement and to fund the program.

BE IT FURTHER RESOLVED that the Natural Resources Interim Committee and the Idaho Water Resource Board meet with potentially affected water right holders and federal agencies to resolve any potential institutional impediments to implementation of an effective managed recharge program and to ensure that such program is consistent with applicable law.

BE IT FURTHER RESOLVED that the Natural Resources Interim Committee and the Idaho Water Resource Board pursue any required federal legislation to obtain access to and use of federal lands and facilities necessary for the implementation of an effective managed recharge program.
